Traveling Along New Paths

HE country needs and, unless I mistake its temper. the country demands bold, persistent experimentation. It common sense to take a method and try it: if it fails, admit trankly and try another. But above all, try something." his pragraph comes from President Roosevelt's own Looking Forward," and it is a declaration of principles ensely encouraging. It seems to set forth precisely attitude which a leadern must have today.

We are not only struggling to climb out of a very dession. We have come, as far as we can tell, to the end an era in our history. Whatever we are going to do in ure, it is going to be something new, something dif-

The old ways have proven their inadequack, and since we perfect wisdom, about the only thing we can do is go d by a trial and error method until we have found a new that will work.

It is a long time since we have had a president who debold persistent experimentation"; it is a long time e our own temper has been of a kind to support such a nt even if we had had one. Ever since the war we lational slogan. We have asked our presidents to keep their hands off things and let well enough alone.

forse, and from worse to worse, it was a catastrophic policy. hat we have at last discarded it, and have a president who

No one knows just what is going to get us finally out of the depression. No one knows just how, having got out, we are going to keep from slipping back in again. We can do nothing less than make some experiments. Some of them, in all probability, will not work, but that does not matter. Our only chance is to keep trying, over and over again, until we have found what we want.

Sanitary Kissing

ITE have read a chapter on sanitation in an up-to-the-minute doctor book, and find these instructions:

Goctor book, and find these instructions:

"You should never kiss a member of your family without having first thoroughly washed your hands and face."
Their hands met. Janet sale
quickly, with a voice unsteady
from memotion, "I've got to go

EXT WEEK

Our attention has been called to the beauty of the many silver poplar trees scattered over the city. Their leaves are silver lined, and in the breezes the green and silver shadows are very pleasing to the eye of the nature leavers. On Thursday afternoon, after the storm and heavy rain an unusually beautiful effect was beheld by those who were fortunate enough to be looking out. In the west rown upon or scold him: held by those who were fortunate on all bond issues proposed in the enough to be looking out. In the west a glorious sunset was shedding its departing rays over a water soaked land, but the country reorganization and salary reductive reorganization and salary reductive reorganization.

Traveling Along New Paths

HE country needs and, unless I mistake its temper. the country demands bold, persistent experimentation. It common sense to take a method and try it: if it fails, admit trankly and try another. But above all, try something." his pragraph comes from President Roosevelt's own Looking Forward," and it is a declaration of principles ensely encouraging. It seems to set forth precisely attitude which a leadern must have today.

We are not only struggling to climb out of a very dession. We have come, as far as we can tell, to the end an era in our history. Whatever we are going to do in ure, it is going to be something new, something dif-

The old ways have proven their inadequack, and since we perfect wisdom, about the only thing we can do is go d by a trial and error method until we have found a new that will work.

It is a long time since we have had a president who debold persistent experimentation"; it is a long time e our own temper has been of a kind to support such a nt even if we had had one. Ever since the war we lational slogan. We have asked our presidents to keep their hands off things and let well enough alone.

forse, and from worse to worse, it was a catastrophic policy. hat we have at last discarded it, and have a president who

No one knows just what is going to get us finally out of the depression. No one knows just how, having got out, we are going to keep from slipping back in again. We can do nothing less than make some experiments. Some of them, in all probability, will not work, but that does not matter. Our only chance is to keep trying, over and over again, until we have found what we want.

Sanitary Kissing

ITE have read a chapter on sanitation in an up-to-the-minute doctor book, and find these instructions:

Goctor book, and find these instructions:

"You should never kiss a member of your family without having first thoroughly washed your hands and face."
Their hands met. Janet sale

EXT WEEK

Our attention has been called to the beauty of the many silver poplar trees scattered over the city. Their leaves are silver lined, and in the breezes the green and silver shadows are very pleasing to the eye of the nature leavers. On Thursday afternoon, after the storm and heavy rain an unusually beautiful effect was beheld by those who were fortunate enough to be looking out. In the west rown upon or scold him: held by those who were fortunate on all bond issues proposed in the enough to be looking out. In the west a glorious sunset was shedding its departing rays over a water soaked land, but the country reorganization and salary reductive reorganization and salary reductive reorganization.

parting rays over a water soaked sand, and the green dripping trees caught the radiance, making it look like a world tipped with gold. in the east, one the most perfect rainbows, was stretched across the horizon forming a stretched across the horizon forming a litture that will be long remember-NOW Mr. and Mrs. Ross Markland and Edwin Crawford of Oklahoma City will arrive Sunday for a visit with their sister.
